

### § 1735.13

### 7 CFR Ch. XVII (1–1–10 Edition)

services of existing mobile telecommunications providers.

(f) RUS shall consider the following criteria for any provider of a specialized telecommunications service in determining whether such service is reasonably adequate:

(1) The provider of a specialized telecommunications service is providing area coverage as described in § 1735.11.

(2) An adequate signal strength is provided throughout the largest practical portion of the service area.

(3) There is an absence of frequent service interruptions.

(4) The quality and variety of service provided is comparable to that provided in nonrural areas.

(5) The service provided complies with industry standards.

(6) No Federal, State, or local regulatory commission having jurisdiction has determined that the quality, availability, or reliability of the service provided is inadequate.

(7) Services are provided at reasonably affordable rates.

(8) Any other criteria the Administrator determines to be applicable to the particular case.

[54 FR 13351, Apr. 3, 1989. Redesignated at 55 FR 39395, Sept. 27, 1990, as amended at 65 FR 42619, July 11, 2000; 65 FR 54403, Sept. 8, 2000]

#### **§ 1735.13 Location of facilities and service for nonrural subscribers.**

(a) When it is determined by the Administrator to be necessary in order to furnish or improve telephone service in rural areas, loans may be made for the improvement, expansion, construction, acquisition, and operation of telephone lines, facilities, or systems without regard to their geographical location.

(b) To the greatest extent practical, loans are limited to providing telephone facilities that serve subscribers in rural areas. In order to furnish and improve service to rural subscribers it may at times be necessary to provide loan funds to finance telephone facilities which (1) will also serve nonrural subscribers, or (2) are located in nonrural areas. Loans may be approved to finance such facilities if the Administrator determines, on a case-by-case basis, that (i) the primary purpose of the loan is to provide service to rural areas and (ii) the financing of facilities

for nonrural subscribers is necessary and incidental to furnishing or improving telephone service in rural areas.

(c) Loan funds may be approved for facilities to serve nonrural subscribers only if (1) the principal purpose of the loan is to furnish and improve rural service and (2) the use of loan funds to serve nonrural subscribers is necessary and incidental to the principal purpose of the loan. The following are examples of purposes for which such loans may be made (such loans are not limited to these examples):

(1) In the case of construction of a new system, if the loan would not be economically feasible and self-liquidating unless the nonrural as well as the rural portions of the telephone service area are included in the proposed system, the loan may include funds for both portions.

(2) Where the acquisition of an existing system located in and serving a nonrural area is necessary to serve as the nucleus of an expanded system to furnish area coverage service in rural areas, the loan may include funds to finance the acquisition.

(3) When a system is being converted to modern service for rural subscribers, the loan may include funds for the conversion of the nonrural facilities, if the rural service will be improved as a result of such nonrural improvements and it is impractical to finance and serve the nonrural and rural areas separately.

(4) A loan may include funds to serve nonrural subscribers located in community centers frequently called by the rural subscribers if the construction to serve such nonrural subscribers will be incidental to, and contribute substantially to, the provision of adequate service for the rural subscribers.

(d) RUS may also approve financing for facilities to serve nonrural areas if, at the time financing was first approved by RUS:

(1) The nonrural area had a population of 1,500 or less when first financed by RUS and that financing was approved prior to November 1, 1993; or

## Rural Utilities Service, USDA

## § 1735.17

(2) The nonrural area had a population of 5,000 or less when first financed by RUS and that financing was approved on or after November 1, 1993.

[54 FR 13351, Apr. 3, 1989. Redesignated at 55 FR 39395, Sept. 27, 1990, as amended at 58 FR 66253, Dec. 20, 1993]

### § 1735.14 Borrower eligibility.

(a) RUS makes loans to:

(1) Entities providing, or who may hereafter provide, telephone service in rural areas;

(2) Public bodies providing telephone service in rural areas as of October 28, 1949; and

(3) Cooperative, nonprofit, limited dividend or mutual associations.

(b) RUS does not make loans to individuals.

(c) RUS gives preference to those borrowers (including initial loan applicants) already providing telephone service in rural areas, and to cooperative, nonprofit, limited dividend, or mutual associations. To be eligible for a loan, a borrower:

(1) Must have sufficient authority to carryout the purposes of the RE Act; and

(2) Must be incorporated or a limited liability company.

[58 FR 66253, Dec. 20, 1993, as amended at 64 FR 50429, Sept. 17, 1999; 65 FR 42619, July 11, 2000]

### § 1735.15 Civil rights.

Borrowers are required to comply with certain regulations on non-discrimination and equal employment opportunity. See RUS Bulletin 320-19 and RUS Bulletin 320-15, respectively.

### § 1735.16 Minimum loan amount.

Recognizing plant costs, the borrower's cost of system design, and RUS's administrative costs, RUS will not consider applications for loans of less than \$50,000.

### § 1735.17 Facilities financed.

(a) RUS makes hardship and guaranteed loans to finance the improvement, expansion, construction, acquisition, and operation of systems or facilities (including station apparatus owned by the borrower, headquarters facilities, and vehicles not used primarily in con-

struction) to furnish and improve telephone service in rural areas, except as noted under paragraph (c) of this section.

(b) RUS makes concurrent RUS cost-of-money and RTB loans to finance the improvement, expansion, construction, and acquisition of systems or facilities (excluding station apparatus owned by the borrower, headquarters facilities, and vehicles not used primarily in construction) to furnish and improve telephone service in rural areas, except as noted under paragraph (c) of this section.

(c) RUS will not make any type of loan to finance the following items:

(1) Station apparatus (including PBX and key systems) not owned by the borrower and any associated inside wiring;

(2) Certain duplicative facilities, see § 1735.12;

(3) Facilities to provide service other than 1-party; and

(4) System designs or facilities to provide service that cannot withstand or are not designed to minimize damage caused by storms and other natural catastrophes, including, but not limited to hurricanes, floods, tornadoes, mudslides, lightning, windstorms, hail, fire, and smoke, unless an alternate design or facility for modern telecommunications is more economically or technically feasible. Economic and technical feasibility will be determined using total long range economic costs and risk analysis.

(d) Generally, RUS will not make a loan to another entity to provide the same telecommunications service in an area served by an incumbent RUS telecommunications borrower providing such service. RUS may, however, consider an application for a loan to provide the same type of service being provided by an incumbent RUS borrower if the Administrator determines that the incumbent borrower is unable to meet its obligations to the government, including the obligation to provide service set forth in its loan documents and to repay its loans.

(e) If an unadvanced loan, or portion thereof, is rescinded, a new loan shall not be made for the same purposes as
